Spielfeld Markierungshilfe

Du bist der Platzwart von deinem Verein und bist es leid jedesmal das Spielfeld neu zu vermessen? Wir haben die perfekte Lösung mit der innovativen Spielfeld Markierungshilfe von saller!

Montagerohr

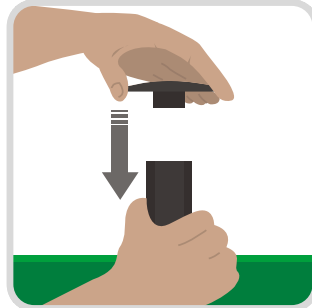

Spielfeld Markierungshilfe

x 25

1

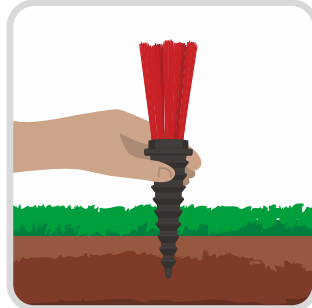

Setze die Kappe auf das Montagerohr.

1

2

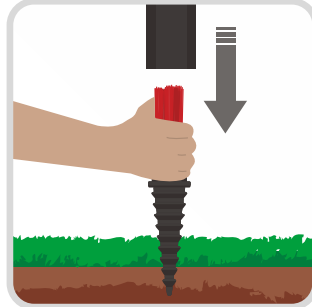

Drücke den Marker, an der gewünschten Stelle, ca. 2cm tief in die Erde.

2

3

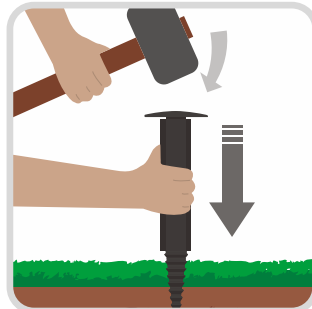

Stülpe das Rohr über die Kunstrasenbüschel, achte darauf das alle Fasern in der Eintriebhilfe sind.

3

4

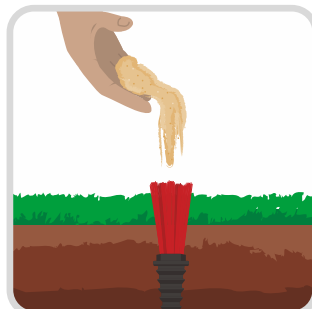

Schlage den Marker mit Hilfe eines Hammers bis zur Markierung am Rohr in den Boden. Die Kunstrasenbüschel des Markers ragen ca. 3 cm hervor, können auf die gewünschte Länge gekürzt werden.

4

5

Den Zwischenraum der Kunstrasenbüschel mit Sand auffüllen.

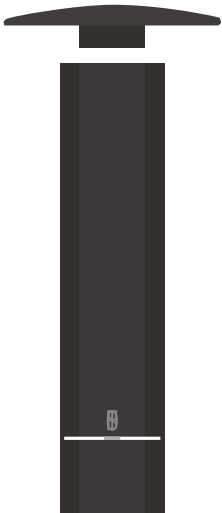

5

INSTRUCTION

Ground Marker

Ground marker simplify the layout of sports fields by serving as fixed reference points. They also make it possible to locate pipes and other buried "objects".

Driver

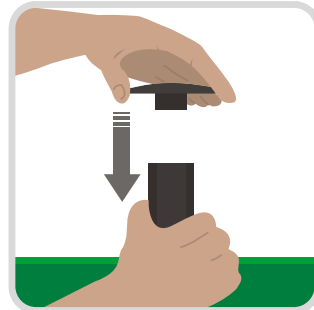

Ground Marker

x **25**

1

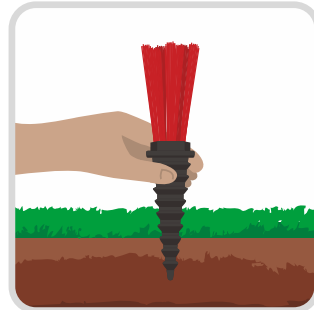

Assembly of the ram:
Put the hat on the tube.

1

2

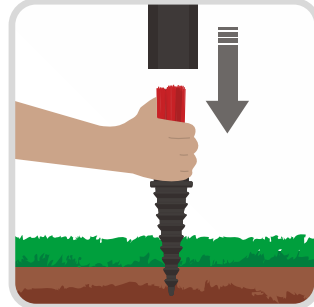

Positioning of the ground marker:
Push in the implant approximately 2 cm
by hand so that it stays in place.

2

3

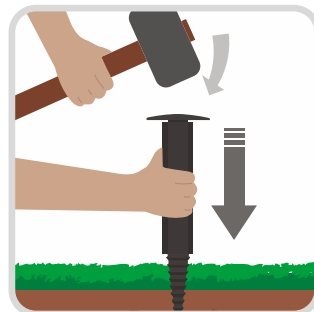

Placement of the driver on the
ground marker: Tighten the fibers and
bring them into the tube.

3

4

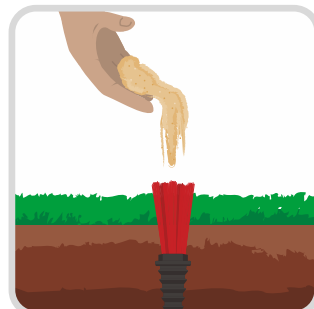

Using a hammer, drive the ground marker
into the soil to the mark on the tube.
The mark on the tube is positioned
so that the fibers protrude 3 cm
from the ground. You can adjust the
depth according to the desired cut size.

4

5

In order to keep the fibers apart,
sand can be added between them.
